Susan Doering

Head of Climate Risk Management Solutions | Corporate Risk and Broking

Relevant Experience/Specialization

Ms Doering leads Climate Risk Management Solutions in North America where she oversees development and delivery of Climate Risk Identification, Quantification, Mitigation and Transfer strategies for large complex clients. Supported by WTW's climate analytics tools, this solution set provides a means to navigate uncertainty around climate, and a path forward for clients across all industry sectors. Specializing in Climate Liability, Susan is also actively engaged with insurers and reinsurers, helping them to evaluate and manage climate risk, and to find opportunities for profitable innovation that supports a just and equitable transition to a low carbon economy.

Ms. Doering joined WTW in 2016 after building an industry leading Environmental Underwriting practice. Beginning her career as an Environmental Consultant developing Risk Assessment modeling, Susan went on to leadership roles in Environmental Risk Underwriting, Coverage Innovation and Business Development.

Until her recent appointment as Leader of Climate Risk Management Solutions, she served as a Global Client Advocate for large multi-national organizations in a variety of industries, working with her broking and service teams to deliver fit for purpose risk solutions for clients with challenging risk profiles. Client industries include Public Entities, Life Sciences, Government Contractors, and Financial Services.

Education and Credentials

A graduate from The University of Pennsylvania with a degree in Biology, Susan has served on the following boards:

- The Insurance Industry Charitable Foundation
- Insurance Society of Philadelphia
- The Nature Conservancy
- Pennsylvania Environmental Council

Ms. Doering is also an active member of her local community garden, providing fresh produce for area food pantries.
